TRADING COMPANY

SAHRA GOL

The background of the page features a dark, textured surface with several fresh green mint leaves scattered across it. A prominent, thick, wavy line in shades of green and teal curves across the middle of the page, separating the header area from the main text. The overall aesthetic is clean and natural, emphasizing organic products.

Sahragol Company is one of the reputable and leading companies in the production and distribution of natural and organic products, particularly licorice, oregano, and black garlic. Established with the goal of promoting community health and offering high-quality products, the company focuses on the production and processing of medicinal plants. Over time, by utilizing modern technologies and scientific methods in product processing, it has managed to solidify its position in both domestic and international markets. With a team of specialists and extensive experience in sourcing and providing premium organic products, Sahragol serves as a reliable consultant for selecting the best products. The mission of Sahragol Company is to offer products in large quantities and at the lowest prices to its buyers around the world.

Products

Licorice

Licorice is one of the important medicinal plants known for its healing properties. The company produces licorice using the best cultivation and harvesting methods. This product is available in the market in dried, powdered, and extract forms.

Oregano

Oregano is another core product of Sahragol. This herb is used as a spice and for its medicinal properties. Sahragol offers oregano in both fresh and dried forms in a variety of packaging.

Black Garlic

Black garlic is one of the company's innovative products, known for its unique fermentation process, which gives it enhanced nutritional and medicinal benefits compared to regular garlic. Black garlic is recognized for its ability to lower blood pressure, boost the immune system, and its antioxidant properties.

Features and Benefits

High Quality: All of the company's products are produced under high-quality standards, ensuring that customers can trust the quality and safety of the products.

Organic Methods: The Sahragol brand emphasizes the use of organic farming methods, making its products free from harmful chemicals and toxins.

Scientific Research: The company collaborates with researchers and universities to conduct research and development on the medicinal properties of herbs, enabling them to bring new and improved products to the market.

Variety of Packaging: To attract a diverse customer base, Sahragol offers its products in a variety of appealing and diverse packaging.

Future Outlook

Sahragol Company plans to expand its product range and enter international markets. The company is also committed to raising public awareness about the benefits of medicinal plants and promoting the use of natural products.

With a focus on quality, innovation, and health, Sahragol is recognized as a leader in the medicinal plant industry. Thanks to the variety of its products and its organic approach, customers can enjoy healthy and natural products.
